

KAUÃ JOSÉ SIQUEIRA TOJAL MOURA

Full Stack Developer | Back-End Developer | Front-End Developer | Systems Analyst | Software Engineer

79981369704 | kauatojal0@gmail.com | <https://www.linkedin.com/in/kauatojal/>

PROFESSIONAL SUMMARY

Front-End Developer with hands-on experience in React and JavaScript, building responsive interfaces, integrating REST APIs, and creating reusable components. Complementary back-end experience with Spring Boot and data projects, delivering high-performance, high-quality solutions.

Experience working in agile squads with responsibilities including automated testing, code reviews, and technical mentoring, with a strong focus on user experience, performance optimization, and component standardization for scalability.

- Reduced front-end loading times by up to 50%.
- Built a task management application that reduced organization time by 35% and increased adoption by 60%.
- Increased squad productivity by 25% through reusable UI components.
- Developed a website and API that increased qualified leads by 120% while reducing bounce rate by 30%.
